4. Treasurer's Report (7:21pm):
  - (a) The Board unanimously approved warrants numbered 175 and 178 for payment.
5. Road Foreman's Report (7:25pm):
  - (a) The Road Foreman updated the Board of the following recent work performed by the road crew: finished grading roads, started digging up some of culverts that didn't go down after the frost, performed ditching on Thistle Hill Road and part of Kings Highway. They will be resurfacing Thistle Hill Road next week. In the next two weeks, they will work on a collapsed pavement at a culvert on the lower end of Galaxy Hill Road.
  - (b) The Board discussed the lack of progress on the culvert replacement on Pomfret Road, where the Town is waiting for the state to complete its review for the FEMA funding. The Road Foreman offered two temporary options to address the bump: replace bump with asphalt or hardpack. Asphalt would be more expensive. The Road Foreman suggested hardpack.
  - (c) Phil Dechert moved, and Mark Warner seconded, that the Board approve a request by Harold Schwenk, Jr. and H. Spencer Schwenk, III dated May 28, 2014 to perform road maintenance work on a section of Totman Hill Road (Town Highway 38). Following discussion, the Board unanimously approved the motion.
  - (d) Mark Warner moved, and Phil Dechert seconded, that the Board approved a .50 cent pay increase for Road Crew member Jeff Robinson following his 6 month probationary period. Following discussion, the Board unanimously approved the motion. The Board plans to hold an executive session at a future meeting to review the road crew worker's performance.
  - (e) The Board agreed to delay any decision for approval of the Vermont 100 road and trail race until Michael Reese contacts the race director to learn more about their plans.

- (a) Phil Dechert discussed the results of a review by computer consultant hired to review the Town's future information technology needs. The consultant noted the Town's equipment and information technology services are geared more to a larger operation and the existing computer contract with Red River computer company is more expensive than necessary. Phil will offer a proposal for bidding future services.
