We hereby submit specifications and estimates for:

Installation of asphalt pavement over 2.5 miles X 22' wide. Asphalt to be installed in 2 courses for a finished depth of 1.75 inches. Approx. 3,220 tons of asphalt will be applied. Pricing to include emulsion and traffic control. Price per ton in place is \$59.62 X approx. 3,220 tons for a total estimated pavement cost of \$191,976.40.

As an option we will install 2' wide gravel shoulders. We will supply machinery to install shoulders, broom, and roller, plus the crushed gravel. Material to be stockpiled at Town garage or location determined by the town. Traffic control is included. Town to provide loader to load our trucks with gravel.

\$14,950.00

As an option Install asphalt pavement in town office parking lot. Lot to be prepared prior to our arrival by town. We will install base course of asphalt compacted to a depth of 2 inches over existing gravel and wearing course of asphalt compacted to a depth of 1 inch over existing pavement and base course.

\$7,000.00

Asphalt pricing is based on current VTRANS liquid asphalt index of \$377.00 and is adjustable to index at time of pavement installation.

WE PROPOSE hereby to furnish material and labor, complete in accordance with above specifications, for the sum of: _____ dollars \$

Payment to be made as follows:

All material is guaranteed to be as specified. All work to be completed in a substantial workman-like manner according to specifications submitted per standard practices. Any alteration or deviation from above specifications involving extra costs will be executed only upon written orders and will become an extra charge over and above the estimate. All agreements contingent upon strikes, accidents, or delays beyond our control. Owner to carry fire, tornado and other necessary insurance. Our workers are fully covered by Workman's Compensation Insurance.

Authorized Signature

F. Warranties

All warranties expressed or implied that are provided by each manufacturer will be in writing. Options for extended warranties should be provided.

A detailed list of all warranties and their provisions shall be listed in the bidder's specifications.

G. Proposal Price

Each bidder's proposal must include all items required in the Town of Pomfret specifications. Any bidder who offers uncalled for "option prices" for an item included in these specifications, which does specifically require option pricing will have their proposal rejected without further cause.

H. Exceptions

The following specifications are considered minimum.

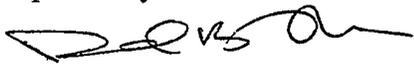

The Purchaser reserves the right to reject any or all bid proposals it deems most suitable to its needs. The Purchaser does not, in any way, obligate itself to accept the lowest or any bid. Any bidder taking "total exception" to the complete specification or a major element will result in immediate rejection of the proposal.

I. Minimum Specifications

1. Location: Pomfret Road from Bartlett Brook Road to Johnson Road (approx. 2.5 miles);
2. Asphalt emulsion Type IV, 1 inch shim, 3/4 inch overlay;
3. Traffic control; and
4. Shoulder fill, at an optional price.

J. Compliance with Instructions

I have read the above Specification Instructions in its entirety and fully understand all the requirements requested by the Town of Pomfret, Vermont.
